Abstract

This paper presents the format and guidelines for the preparation of abstract for submission to the 4th International Conference on Structure, Processing and Properties of Materials, SPPM2018. The sample format given here is a desired one and should be followed as an example only. Abstracts are limited to 350 words only which should be free from equations, figures, tables and references.

Keywords: Up to 4 (four) keywords relevant to the topic should be given.
